

THE BEARDED NOTARY

First 30 Days Mobile Notary Action Plan

A focused one-page roadmap for new mobile notaries who want early momentum.

How to use this page

Follow one week at a time. Use the full article and supporting guides below when you want the deeper, step-by-step version.

Week 1: Foundation and setup

- Order your stamp, journal, business cards, thumbprint pad, and appointment basics.
- Set up your business email, voicemail, and payment methods.
- Lock in your pricing for notarizations, travel, and after-hours work.
- Create your Google Business Profile and define your service area.

Week 3: First clients and reviews

- Take early jobs from warm contacts and sharpen your workflow.
- Ask every happy client for a Google review.
- Track where each lead came from so you know what is working.
- Review your pricing and make small corrections where needed.

Week 2: Marketing and training

- List your business on key free directories and map platforms.
- Add yourself to notary-specific directories for extra visibility.
- Start loan signing training if that matches your income goals.
- Build a ready-to-go mobile notary kit for faster response times.

Week 4: Scale and systems

- Apply to signing companies if you are pursuing loan signings.
- Double down on the channels already producing responses.
- Measure signings completed, income earned, and hours worked.
- Set your month-two goals and map your next action steps.
